---

## WORK EXPERIENCE

**Flutter Developer | Wings Tech Solutions | [Brooon](#)**

**May 24 - Present**

- Developed and maintained features for "Brooon," a real estate app.
- Enhanced matching functionality to improve property and inquiry alignment.
- Introduced city-based features to enhance user experience.
- Implemented UI improvements to elevate app design and usability.
- Successfully migrated the project to the latest version of Flutter, ensuring compatibility and leveraging new framework features.

---

## PROJECTS

**Otaku World | [Github](#) | [Figma](#) | [Playstore](#)**

**February 24 - July 24**

- Built a feature-rich Flutter application for anime and manga enthusiasts, enabling users to seamlessly track their progress across over 500,000 titles via AniList's GraphQL API.
- Utilized BLoC architecture for clean state management and scalable code structure.
- Designed an intuitive and engaging UI/UX for smooth content discovery and tracking.
- Integrated community features for users to share progress and connect globally.
- Focused on performance optimization and industry best practices to ensure production readiness and future extensibility.
- 

**JCC - Jamnagar Corporation Care | [Github](#) | [Github](#) | [Figma](#)**

**September 23- October 2023**

- Developed JCC and JCC Admin apps for Jamnagar Municipal Corporation during SSIP Gujarat Hackathon 2023.
- JCC enables public complaint registration and tracking, while JCC Admin allows corporation employees to manage complaint statuses.
- Utilized Flutter and BLoC for responsive UI and state management.
- Employed Firebase for database management and OneSignal for push notifications.
- Advanced to finals, showcasing innovation in civic technology solutions.

**GDSC Atmiya | [Github](#) | [Figma](#)**

**July 23- August 23**

- Conceptualized and led development of GDSC Atmiya, an event management solution for the college's GDSC chapter.
  - Leveraged Flutter and BLoC for responsive user experience.
  - Integrated Firebase for secure event data management.
  - Implemented OneSignal for push notifications, enhancing communication with 400+ club members.
  - Streamlined event management with direct RSVP and notification features via GDSC's official website within the app.
-

## ACHIEVEMENTS

### App Dev. Lead At GoogleDSC Atmiya

July 23 - May 23

- Android and Flutter App Lead At Atmiya University.
- Helping fellow members and friends to upskill with recent trends and technologies.

### Organized Intra Level Hackathon (GDSC)

Jan 2023

- Organized University Level hackathon at Atmiya University
- 80+ teams participated in this 12 hour long hackathon.

### Organized Inter Level Hackathon (GDSC)

March 2023

- Organized Code Carnival National Level hackathon at Atmiya University
- A 36 hours long hackathon was participated by 600+ teams from 5+ states with 50 different cities.
